

FAMILIARIZATION TOURS

GRAVENHURST
GATEWAY TO MUSKOKA

This program is intended to address an issue that was brought up by those leaving the community a short time after finding a job in the area.

Familiarization tours are intended to be one hour “walk-about” that will be tailored to the interest of the employee or group of employees. Tours are intended to connect new employees to the various networks throughout the town, such as relevant service groups, social groups, religious and cultural organizations and local community ambassadors. Recent reviews of new employees leaving the region state that despite the work available, they either don’t feel part of the community or are “bored”.
