

Worksite Health and Safety

for owners, contractors/workers and inspectors

www.gravenhurst.ca

SITE SAFETY

- If an inspector considers a site to be unsafe the inspection will not take place
- If a site is considered unsafe, the owner/contractor will be required to reschedule the inspection when the unsafe condition(s) on site have been corrected

ACCESS TO BUILDINGS

- Safe access shall be provided for workers and inspectors in means of entering and exiting buildings
- Owners/contractors shall be prepared for inspections and provide adequate access to the building during all seasons

GARBAGE ON SITE

- Garbage on any given site shall not affect neighbouring properties
- All garbage/construction waste shall be stored in waste bins
- See Town of Gravenhurst Community Standards By-Law for more information

ACCESS TO FLOORS

- Access to floors shall be provided by either ladders or stairs or a combination of the two
- Ladders shall be securely fastened at the top and bottom
- Stairs shall have a temporary guard system if a hazard is present or when stairs are not adjacent to a wall

SNOW AND ICE REMOVAL

- Snow and ice shall be maintained on a site to provide a safe environment for workers and inspectors
- Removal of snow shall not affect neighbouring properties or municipal roadways

SAFETY AT OPENINGS

- Openings in floors shall be protected by a temporary guard system
- Openings in floors shall be clearly identifiable
