 Upgrades to address Accessibility for Ontarians with Disabilities Act (AODA) as well as new fixtures.

 Completed Spring 2023

Centennial Centre/YMCA

 Repair and refinish concrete in the main corridor of the Centennial Centre and the YMCA. Sanding, relining, and refinishing of the gym floor YMCA

 July 2023

Seniors Centre Early Fire Detection System

 Installation of various components including new control panel, alarm pull stations, and smoke detectors which will provide early fire detection, providing important additional lifesaving minutes for the occupants of this facility to safely evacuate the premises.

 Summer 2023

Municipal Council Chambers

 New multi-camera live streaming system that will provide a better viewing experience as well as technology to convey agenda information and voting results to the viewing public. Installation of wall-mounted monitors and a new council table to improve sight lines and showcase heritage elements.

 Fall 2023

Opera House/Library Surveillance Cameras

 The installation of the surveillance cameras helps improve both safety and security of staff and patrons/visitors in the town, and aids in the protection of town property.

 Fall 2023

Municipal Office Replace Fire Panels/Devices

 A critical piece of infrastructure that controls and monitors various components of the fire alarm system including smoke detectors, heat detectors, and alarm pull stations.

 Winter 2023
