

INVESTING IN GRAVENHURST

The Town of Gravenhurst is planning to move ahead with various parks-related improvement projects. Review our list for details. In the months ahead, watch for details on additional investments we are making.

Wharf Splash Pad Shade Structures

New and much needed shade structures have been installed at our splash pad situated at 1111 Bay Street. Three in all, these shade structures not only offer shade, but additional seating for patrons using this facility.

May 2023

St. James Cemetery Fence Upgrade

Installation of a new 340 ft (103 metres) length of black polycoat chain link fence on south perimeter of St. James Cemetery.

May 2023

Muskoka Wharf Boardwalk Upgrades

Replacement of various sections of the Wharf boardwalk.

Present – Late-Summer

Muskoka Bay Park Baseball Diamond

To ensure ball containment, a hoistable barrier net will be installed on a portion of the outside perimeter of the baseball diamond located at Muskoka Bay Park (700 Muskoka Rd. 169). The hoistable barrier netting will span from the first base line to centre field.

Mid/Late July

Various Parks & Trails

As part of a multi-year initiative, the Town will replace and/or upgrade several stair and bridge structures within our park and recreational trail systems. 2023 projects include Peninsula Trail, Cooper's Falls and Ungerman Gateway Park. 10 new accessible picnic tables will also be situated at various parks and open spaces throughout the Town. For more information on our recreational trail system, visit Gravenhurst.ca/Trails

2023

Muskoka Wharf Hockey Boards

The decades old (outside) hockey boards situated at 1111 Bay St. have been removed in preparation of the installation of new (outside) hockey boards which are intended to be more functional than that of the former structure (i.e. end board containment netting).

Late Summer

Solar Radar Speed Signs in Multiple Locations

As part of a multi-year initiative, the Town continues to acquire solar radar speed signs. In 2022, 5 solar radar signs were acquired and installed. Three are scheduled to be acquired in 2023. Locations to be determined.

Fall
